

St. Patrick's Day Party

Four children went shopping at a strip mall for items for a St. Patrick's Day party. Each bought one item at a different store.

From the clues given, figure out which child bought which item at which store and the age of each child. Write the answers in the boxes.

1. Sean is a year older than Maureen.
2. Maureen bought leprechaun hats from a shop farther to the right than the one where Sean shopped.
3. The child who was 10 bought something at Shannon's.
4. Patty is 11 years old.
5. The streamers were purchased at O'Brien's.
6. The green balloons were bought by a child a year younger than the one who bought the paper shamrocks.

Children's names: Erin, Maureen, Patty, Sean

Ages: 10, 11, 12, 13

Items bought: green balloons, paper shamrocks, green streamers, leprechaun hats
